The Garson Daily Appeal

day afternoon by Surgeons Bronson and Mooklar. The operation was performed at Mr. Wm. Hawthorne's (the lad's father) house and was undergone while the patient was under the influence of chloroform. This tumor is a congenital affliction: and when Millard was only four days old he was submitted to a like surgical operation, only, of course, the tumor was then much more quickly and easily removed. The painful process was conducted with much skill by the surgeons, and the young man prepared for it, submitted to it and "stood" it like a hero. The cause of complaint, which has latterly been very painful, was about the size of a hen's egg and was found to be grown fast to the check bone. When we came to ascertain the painful and ungodly technical name of the thing we were against with wonder that the very terms which were crammed into the horribic little lump hadn't killed him long ago. He is doing nicely and is havlong ago. He is de ing excellent care.

but we think he must be a Cannek) J H Macander whacked an ax into his foot at Franktown on Saturday and made such a bad job of it as to come very near raining himself. His friends brought him in here and one of the bone-setting frater-nity, Dr. Talcott, we believe, patched him up and gave him such relief as was possible under the circums ances. There is every reason to be doubtful of his binous Italian for we never yet heard of one of that race who pretended to be a wood-chopper; but then an awkward fellow who was much more used to handling maccaroni than a enopping ax would be more fikely to practice on his foot than one who is an experienced ax man, as nearly all the French Camadians are.

TINKERING the roof of the new car shop of the V. & T. R. R. will be no small job judging from the following which we clip from last evening's Gold Hill News: "John Ryno, foreman of Gillig & Mott's tin shop, Virginia City, passed through Gold Hill on the eight o'clock train this morning, en route for Carson. On his arrival in that city he will commence the work of constructing a roof of corrugated iron over the new machine shop of the V. and T. Kailroad Company, which is being erected at that place. The services of twenty tinners will be required for two or three months to complete the job, the superficial con-tents of the roof being nearly an acre."

BISTHDAY BALL .- A three cornered birthday ball will take place at Richey & Williamson's Hall, Empire, on the Hall; Treasurer, J. Tobriner; Secretary, 28th inst.—next Monday. The tri-28th inst.—next Monday. The tri-angular nature of the occasion will be understood when we say that the 28th of April is the anniversary of the birthday of John Hansen, Eu ene May and John Richey, all well known Empire citizens. In the arrival thereof young Jesse Grant Propositions has been say that Mr. Geo. W. Dent, Grant's brother-in-law, is in Virginia City awaiting the arrival thereof young Jesse Grant Preparations have been made for a very perfect entertainment and our sister city will be a very gay and festive place on the occasion. Flanders will do the music and calling. See adv.

A WATER CARTASTROPHE occurred opposite the Carson street front of Ran's block yesterday by the b caking down of one of the fore wheels of the street sprinkler. Young Elrod, who is the chief engineer of the sprinkler says it will be squirting all right this afternoon. It made a heavy wet where it had its confloption.

PECK BURNHAM and his corps of assistants were busily at work yesterday constructing a blow hole for the Mint steam escape. The thing he is building is a wooden tank, sunk underground to be used as a receptacle for the hot water when the boiler is blown off. Drains connecting with the tank will convey the
